

We are a full service contractor and will support and advise our customers in areas where we have special expertise.

ASI Mechanical provides new construction and turnaround services; along with our family of companies we offer high quality workmanship at a very competitive price. Safety and quality is never compromised for production.

ASI Mechanical is part of the Altair Strickland family; within the companies are capable of self-performing many of the job tasks eliminating costly subcontractor markups.

- Shop fabrication
- Refractory
- Planning and scheduling
- Major turnarounds
- Exotic welding
- New Construction

ASI Mechanicals goal in performing new construction as well as turnarounds is to deliver performance to the owner, which we will define as follows:

- Safe execution of the work
- Meeting critical path objectives
- Productivity/Lower costs
- Rapid response
- Quality through conformance to owner requirements
- Integrity
- Innovated tracking methods

Turnaround / Construction

- Constructability reviews
- Estimating
- Planning / Scheduling
- Progress reporting
- Cost reporting
- Project specific execution plan
- Safety execution plan
- R, U&S Stamps

On safety...

People are our most important resource, and their safety is one of our principal responsibilities. Safety must be a key part of all operations whether it be administration, sales, distribution or transportation. Our safety objectives are to provide an accident and injury-free work environment, reduce cost associated with accidental losses, provide greater efficiency through the control on unintentional work interruptions, and comply fully with all local, state and federal laws and regulations.

Our Quality Mission Statement...

At ASI Piping L.L.C., Quality is inherent in all Services and Products we provide. Our commitment to provide the highest quality of service and products to our client is an integral part of who we are. We strive always to do our best, to provide the best for the best.
